Re: **Residency Fraud**

Dear Cumberland Regional School District Families:

This letter is to ask for our resident's assistance in an important matter. The Cumberland Regional School District continues to remain diligent by investigating and acting upon incidents of residency fraud. Cases of children who reside outside the community and illegally attend our schools equates to theft of services and taxpayer dollars.

When the District becomes aware of such situations, an investigation is conducted and the appropriate actions are taken, which may include removal of children from school, reporting the incident to the police, and charging tuition.

It is illegal for a Cumberland Regional School District resident to allow the use of his/her address or residence by someone who resides outside the District for the sole purpose of allowing non-resident children to attend our schools. The District reports such incidents to the proper authorities, and takes other punitive actions against offenders.

No member of the school community should overlook this type of theft of community resources. You are encouraged to report suspected incidents of residency fraud to the school principal or Superintendent of Schools. Reports can be made anonymously to the school offices or Superintendent's office at 856-451-9400 Ext. 214. When a report is made, the District conducts its own investigation. The name of the reporting individual is not necessary or shared with anyone.

I thank you in advance for your partnership as we begin a new school year.

Sincerely,

William J. Stonis  
Superintendent of Schools
