

Cumberland Regional School District

COVID REQUIREMENTS

Cumberland Regional staff, students, and visitors on district premises on a regular basis (including summers) are required to comply with Covid state regulations, including weekly Covid testing for unvaccinated workers, reporting Covid-positive test results, and reporting Covid symptoms.

Masking

Currently, the state does not require masking in schools; however, it is encouraged. There may be times it is required, such as when returning to school after quarantining, but you will be notified of the appropriate requirement depending on your situation.

Testing

As stated in Executive Order 253 from New Jersey Governor Murphy, effective October 18, 2021, “covered workers” in all schools in New Jersey will need to either show proof of full Covid vaccination, or test at least once weekly. A “covered worker” includes the following:

- 1) All school staff
- 2) Educational support professionals
- 3) Individuals providing food, custodial, and administrative support services
- 4) Substitute teachers, whether employed directly by a school or otherwise contracted
- 5) Contractors, providers and any other individuals performing work in a school whose job duties require them to visit the school more than once weekly, including volunteers

If you are vaccinated, send proof of full vaccination to Jackie Jackson at jackson@crhsd.org, or you may submit a hard copy. If you are not vaccinated or do not show proof, you need to get a Covid test weekly and provide results to Ralph Aiello via email. We are requesting that you get tested on Tuesdays, if possible. Otherwise, as close to Tuesday as you can each week. You do not need to get tested for the week if you do not work for that entire work week, or if you have contracted the Covid virus within the last 90 days. If you did contract Covid within the last 90 days, you must submit proof of your positive test to the school nurses, even in the summer.

Rover Labs provided the district with rapid test kits that may be used to comply with the weekly testing requirements, to be used in conjunction with their self-reporting tool (https://app.dev.rover-labs.com/selfreported/NJDOH_DEV_OTC_ANTIGEN) to submit results. You may also get tested on your own with an FDA-approved testing kit and provide results directly to Ralph Aiello.

If you have any questions, contact Jackie Jackson:
