

COVID-19 QUARANTINE GUIDELINES: EFFECTIVE 3/7/2022

	STAFF	STUDENTS
COVID-19 positive, symptomatic or asymptomatic (vaccinated*** or unvaccinated)	<ul style="list-style-type: none"> Stay home and isolate for 5 full days. If symptoms improve, you may discontinue isolation on the 6th day but MUST continue to wear a mask for an additional 5 days. If symptoms persist, continue to isolate until fever-free for 24 hours and other symptoms have improved. 	<ul style="list-style-type: none"> Stay home and isolate for 5 full days. If symptoms improve, you may discontinue isolation on the 6th day but MUST continue to wear a mask for an additional 5 days. If symptoms persist, continue to isolate until fever-free for 24 hours and other symptoms have improved. Parents/guardians may choose to quarantine their child for the full 10 days.
Home close contact* (if not vaccinated***) of COVID-19 positive person	<ul style="list-style-type: none"> Stay home and isolate from COVID-19-positive person for 5 full days. If symptoms do not develop, you may discontinue isolation on the 6th day but MUST continue to wear a mask for an additional 5 days. If symptoms develop, get tested** and follow isolation recommendations. 	<ul style="list-style-type: none"> Stay home and isolate from COVID-19-positive person for 5 full days. If symptoms do not develop, you may discontinue isolation on the 6th day but MUST continue to wear a mask for an additional 5 days. If symptoms develop, get tested** and follow isolation recommendations.
COVID-19 symptoms (vaccinated*** or unvaccinated)	<ul style="list-style-type: none"> Stay home and isolate for 5 full days, unless an alternative diagnosis is made by a medical professional. If symptoms improve, you may discontinue isolation on the 6th day but MUST continue to wear a mask for an additional 5 days. If symptoms persist, continue to isolate until fever-free for 24 hours and other symptoms have improved. 	<ul style="list-style-type: none"> Stay home and isolate for 5 full days, unless an alternative diagnosis is made by a medical professional. If symptoms improve, you may discontinue isolation on the 6th day but MUST continue to wear a mask for an additional 5 days. If symptoms persist, continue to isolate until fever-free for 24 hours and other symptoms have improved. Parents/guardians may choose to quarantine their child for the full 10 days.
Non-home close contact* (unvaccinated) of COVID-19 positive person	<ul style="list-style-type: none"> If asymptomatic, staff will be given the option to quarantine for 5 days and utilize sick days. If asymptomatic and if quarantine option is not selected, mask must be worn for 5 days after last known exposure (day 0 is date of last contact). If symptoms develop, get tested** and follow isolation recommendations. 	<ul style="list-style-type: none"> If asymptomatic, parents/guardians may choose to allow their child to remain in school and wear a mask for 5 days after last known exposure (day 0 is date of last contact). Parents/guardians may choose to have their child complete the recommended quarantine period with virtual learning if proper notification is provided to the school district. If symptoms develop, get tested** and follow isolation recommendations.
Extracurricular students that are COVID-19 positive and/or close contacts	Students participating in extracurricular activities may return to school based on the criteria above; however, those who choose to quarantine may not participate in extracurricular activities during that time.	

* Close Contact means less than 6 feet from someone who has tested positive for COVID-19 for 15+ minutes during a 24-hour period.

** Don't get tested if you have tested positive for COVID-19 in the past 90 days.

*** Individuals ages 12+ who have received all recommended COVID-19 vaccine doses, including boosters, are considered vaccinated.
